

FIELD TRIP TO THE CHOCOLATE FACTORY

A Sweet Learning Experience

The enthusiastic students of Grades I and II embarked on an exciting field trip to a chocolate factory. The visit was a delightful blend of fun and learning, giving our young Johnsonites firsthand experience of how their favorite treat is made.

The trip began with a warm welcome from the factory staff, followed by a guided tour of the chocolate-making process — from cocoa bean to delicious chocolate bars. The students watched in amazement as machines moulded and wrapped chocolates with precision.

Throughout the tour, the children engaged with chocolatiers, asking curious questions and gaining insights into the art of chocolate-making. The visit concluded with a small treat, leaving everyone with sweet smiles and wonderful memories.

This educational trip not only enhanced their understanding of food production but also fostered curiosity and creativity. We extend our heartfelt gratitude for the warm hospitality and for making learning so delicious!

Grade I and II Exam Preparation Tips **"Study Smart, Stay Confident, Succeed!"**

Exam preparation for young students should be stress-free and enjoyable. Teachers, by using engaging methods and maintaining a positive approach, developed confidence in the students of Grade I and II to give their best in the final examinations.

The activity began with a discussion on how exams help us understand what we have learned in class. Teachers aim to help young learners prepare so that they feel confident and ready. Facilitators of Grade I & II explained and gave a few guidelines to make students ready for their exams like

*Revise daily*Practice writing *Solve sample questions *Take breaks

*Get good sleep & eat well*Stay calm & confident .

These practical guidelines empowered the young Johnsonites to approach exams with a positive mindset. They learned not just how to study but also how to take care of themselves during this important time. The session concluded with heartfelt wishes from the teachers, who reminded students, *"Do your best, and remember – learning is fun!"* Their words of encouragement filled the classrooms with excitement and assurance. With smiling faces and a sense of readiness, our young learners are all set to shine!

" Exploring Myself"

Our Grade I and II students had a delightful and enriching experience exploring the theme "Myself"! Through a series of engaging and interactive activities, our young learners enthusiastically shared personal stories, paving the way for greater self-confidence and self-awareness.

One of the highlights was the creation of vibrant **"Myself" posters**, where each child drew a cheerful self-portrait and wrote about their favorite things, their families, and their dreams. The excitement continued with a lively **"Show and Tell"** session, where students proudly introduced themselves to their peers. This not only helped them build meaningful connections but also gave them a platform to celebrate their individuality.

These thoughtfully planned activities nurtured self-expression, encouraged empathy, and fostered a strong sense of community in the classroom. We are incredibly proud of our little learners for their creativity, enthusiasm, and the joy they brought to this journey of self-discovery!
