NATURE WALK

A walk in nature walks the soul back home

The most beautiful gift of nature is that it gives pleasure to our eyes and it allows one to use all senses positively. The teachers of Grade I planned a NATURE WALK for the students to spend some time with nature, explore and appreciate it.

In today's digital world nature walk enabled the students to observe, explore, rejuvenate and stimulate the sense. The teachers had taken the students to the school garden where they showed the students different kinds of plants, trees, flowers that are grown and taken care. Students experienced the gift of nature -greenery, fresh air, sunlight, flowers and grass. Nature walk is simple yet powerful way to improve students' physical and emotional development.

This activity enabled the students learn to focus their attention and take in the details of things around them. NATURE IS THE ART IN ITSELF

BEAT THE HEAT

"Melt The Day With Beat The-Heat Slurp!!!!"

We all know the warm fuzzy and happy feeling that these words bring! Summer - A season where every child wants to do nothing but run around outside to play and have loads of fun and enjoy drinking cool chilled tangy lemonades. Our students of Grade I and II enjoyed making a cool step-by-step as they followed instructions to the preparation of the sweet and lemony lemonade to "Beat the Heat". It was a delightful experience for each one of these little champs as they involved themselves in hands on activity as well as experienced the happiness in team work. Together they blended and enjoyed drinking the yummy lemonade. It was a time of enjoyment and a time where they made wonderful memories of the day.

EASTER ACTIVITY

Rise of Hope And Happiness

Our country, India is known for its festival culture and traditions. To enable the students acknowledge the importance of the Easter festival, the teachers of Grade I and II conducted few creative and fun-loving activities. Students engaged themselves with enthusiasm, joy and creativity. Students showcased their artistic flair in activities like finger dabbing and paper crushing. Each student expressed their unique style resulting in a vibrant display of colourful eggs and bunnies that adorned the classroom. This activity not only fostered excitement but also encouraged them to showcase their artistic skills. Overall Easter activity provided a blend of learning, creativity and joy, creating lasting memories for the students as they celebrated this special holiday together.

PICK ME RIGHT

Students of Grade II were involved in an activity which helped them to actively engage with action words & reinforce their understanding of verbs through Hands-on-learning. It promoted language development, creativity and critical thinking skills in young learners.

PICK ME RIGHT activity was to identify & understand action words in a fun and interactive way.

During the activity a basket was placed on the table which was filled with action word cards. Each student by taking turns picked a card and enacted the action word. Which created a fun way to learn. In this way young Johnsonites had a blast while learning about action words in an interactive & memorable manner, had fun and enjoyed by exploring the world of verbs

HOP SKIP & JUMP

Teachers of Grade II, through a play way method introduced an activity for students to combine physical movement with Maths, making learning of skip counting interactive and engaging.

Teachers labelled the chairs with number cards & placed them in a circle. Students were instructed to move around the chairs, while the teacher played the music.

As the music stopped, students were asked to sit on the related number chairs according to the number assigned by the teacher and completed a set number of rounds.

By incorporating numbers displayed on chairs into skip counting activity, students of Gr II enjoyed experiential learning that enhanced their mathematical skills while having a great time moving around the classroom.

WELCOME TO SCHOOL

Caption: "New Friends, New Memories, New Adventures. Good Luck!!"

"The first day of school" is a momentous occasion for students filled with a blend of excitement and nervousness. A special welcome day was organized for students of Grade I and II to set the tone for positive relationship among students and foster their academic success. The teachers welcomed the little champs by greeting each one of them individually as they entered the classroom.

The teachers then engaged the students in fun ice-breakers to help them connect. They were encouraged to introduce themselves to the class. Later, the students were taken for "School Tour" to make them familiar with the surroundings and different places of the school. At the end of the day, students were presented with welcome handouts with utmost love and care. It was an amazing experience to see the lovely smiling faces.

EARTH DAY Get Inspired And Make A Real Change

Earth Day raises awareness of the need to protect Earth's natural resources for future generations. As an awareness program the teachers of Grade I gave a creative thought of recycling and re-using old T-shirts into new T-shirts with impressions of leaf on it. As a part of the activity students of grade II made a crown of earth and wore it to spread awareness and participated in a rally spreading awareness to "Save Our Mother Earth". Thus, activities are a great way to incorporate and enhance the importance of our planet Earth and take necessary actions towards it. Therefore, Grade I and II students with the following activities enjoyed a lot and got connected with the nature. SAVE OUR PLANET EARTH!

HAPPY HANDS ACTIVITY "Cleanliness Is The Scourge Of Art"

Handwashing is an important habit for students and teaching it effectively can have significant impact on their health.

Hence, the teachers of Grade I and II engaged students in different handwashing methods by taking them to the school hand wash area, demonstrating how to clean hands with soap and water focusing on various aspects of personal hygiene. Importance of hygiene was explained to students through rhymes in a fun-loving way. This activity enabled students to develop the sense of hygiene during their early age.
