

## BAGLESS DAY

"Learning through play on Bagless Day!"

'Here comes Bagless Day!' Students enjoyed a day filled with fun and enriching activities aimed at improving their learning skills and overall development.

The day commenced with gross motor skills activities where children of Pre Primary folded clothes. This task not only developed muscular control but also taught exactness and rigor, laying the groundwork for future geometry skills. Sorting activities helped children use their prior knowledge to categorize items. They sorted living and non-living things, as well as fruits and vegetables. To wrap up, a video on monsoon precautions was shown, raising awareness among children. Monsoon is a joyous time, offering moments to cherish with loved ones and enjoy the scent of rain. While children love playing in the rain, it's important to take precautions to stay safe and healthy.

## DOCTORS DAY

### Guiding light in the darkest times

National Doctor's Day is celebrated on 1st July to express gratitude and appreciation towards the selfless doctors who serve humanity. To commemorate the day students of the school dressed up in Doctor's attire and teachers created an ambiance of a hospital with various equipment signifying the valuable services of doctors for saving lives. Health check-up was organized in our school and qualified medical professionals were invited to supervise the students including testing of height, weight, eyes, ears, dental, and BMI calculations, followed by valuable health advice.

## POEM RECITATION

### Poetry comes alive only through recitation

The Poem Recitation Activity for the Pre-Primary students was a delightful event as a part of Language education. The event aimed to nurture the speaking skills, creativity, and confidence of the young learners by providing them with a platform to express themselves through poetry. The primary objective of the activity was to help students build their vocabulary, and enhance their pronunciation. It also aimed at boosting their confidence in front of a classroom, allowing them to experience the joy of expression through poetry.

## GREEN DAY Nurture Our Mother Nature

The colour Green reminds us of our beautiful nature, Green is the most common colour in the natural world, think of nature and see green in all its glory expressing renewal and life. Green is said to have healing power and is understood to be the most relaxing and restful colour for human eyes. The green colour goes with growth, safety, and nature. All students and teachers came to school dressed in pretty green attires and looked eco-friendly. The classrooms were beautifully decorated in green theme and all the green objects from a child's immediate surroundings were brought to the classrooms. Different activities like singing rhymes and handcrafts were conducted in classrooms, identification of vegetables, and fruits was done, handouts were made by students and the awareness was spread amongst all to preserve and conserve our nature.

## KINESTHETIC AND NATURALISTIC VISUAL LEARNING EXPLORING TIGERS

In this immersive and interactive experience, children will embark on a journey to discover the majestic world of tigers, engaging their senses and fostering a deeper connection with nature.

Little Johnsonites in PrePrimary participated in a range of activities, such as creating animal masks, showing and talking about their favourite animals, and watching an AV on animal care and nurturing. These experiences helped children develop important morals and life skills that will help them grow in to kind, responsible adults who look out for and nurture both animals and the environment.

## TOY BASED LEARNING

Toy-based learning by using toys and play as an educational tool to engage children in active and experiential learning. Our Pre-Primary children brought their favorite fruit and explained about the fruit shape, color and taste. Some of the Children created puppets, which enhanced their creativity, fine motor skills. Our little ones also participated in Puzzle matches and Jumping on hula hoops by sorting them by colour and counting each group, both counting and sorting skills and hopping to different numbers. This helped our tiny ones with number recognition and understanding of numerical order. These activities not only make learning fun but also help children understand in a practical and hands-on manner.

## VAN MAHOTSAV Festival of Nature

Van Mahotsav, also known as the "Save Trees and Nature" is an annual tree-planting movement in India. It is celebrated in the first week of July. This is about the importance of trees in our environment and encourages people to plant more plants. The primary goal of Van Mahotsav is to foster a deeper connection with nature by emphasizing the importance of caring for trees and the environment.

Our preprimary children participated in nature-oriented activities like Leaves Collage, made pictures in scrapbooks, AV on saving the green trees and they made leaves bracelets. These activities made children learn importance of Trees in our life and improve their life skills.  
SAVE TREES AND SAVE NATURE.
