

HEALING HANDS, CARING HEARTS

To mark National Doctors' Day, the enthusiastic students of Grades I and II participated in a meaningful Homemade Remedies Activity, celebrating the invaluable service and dedication of doctors while learning about simple, natural ways to stay healthy. Dressed as young doctors and carrying stethoscopes, the students confidently presented a variety of homemade remedies prepared with the help of their parents. They showcased ingredients such as ginger tea, honey, tulsi leaves, herbal kadha, lemon water, and other traditional home remedies, explaining their health benefits and how they can help relieve common ailments. The activity also highlighted the importance of maintaining good health through healthy eating, hygiene, and timely medical care. Teachers guided the children in understanding that while home remedies can provide relief for minor health concerns, doctors are the true healthcare heroes who diagnose illnesses and provide the right treatment when needed. The celebration was an engaging and educational experience that nurtured gratitude, respect, and admiration for the medical fraternity. It encouraged students to adopt healthy habits while appreciating the selfless service of doctors who dedicate their lives to caring for others.

Little Hands, Big Green Dreams

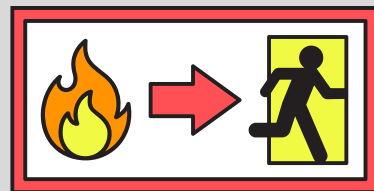

To celebrate Van Mahotsav, the festival of trees, the enthusiastic students of Grades I and II participated in a special green initiative by bringing potted indoor plants from home. Their colourful collection of plants transformed the classrooms and school corridors into refreshing green spaces filled with life and positivity. Children proudly brought a variety of indoor plants such as money plants, aloe vera, spider plants, and snake plants. These were beautifully arranged in classroom corners, on windowsills, and on decorative plant stands, creating a pleasant and eco-friendly learning environment. As part of the celebration, teachers engaged the students in interactive discussions about the importance of trees and plants. The young learners discovered how plants help purify the air, beautify our surroundings, and contribute to a healthier planet. The activity encouraged them to develop a sense of responsibility towards protecting nature and inspired them to adopt environmentally friendly habits from an early age. The Van Mahotsav celebration was a joyful and meaningful experience, reminding everyone that every plant nurtured today helps create a greener and cleaner tomorrow.

FIRE DRILL ACTIVITY- Ready, Alert, Safe!

"Fire drills are not merely procedures—they are essential rehearsals that prepare us for real-life emergencies."

As part of the Show and Explain Activity, students of Grades I and II actively participated in a Fire Drill Demonstration based on the theme "Safety and Alert." A mock scenario was thoughtfully set up using flame cutouts, ropes, and a fire extinguisher to simulate a real-life fire emergency. During the activity, students practiced important safety techniques such as crawling low under simulated smoke, covering their mouths to avoid inhalation of fumes, and moving quickly yet calmly toward a designated safe exit. They were guided to remain composed, alert, and responsive in an emergency. The session was an engaging blend of fun and experiential learning, helping young learners grasp fundamental fire safety protocols through hands-on exposure. It reinforced the importance of staying calm, acting swiftly, and prioritizing safety.

GURU PURNIMA- GUIDED BY WISDOM, INSPIRED FOR LIFE

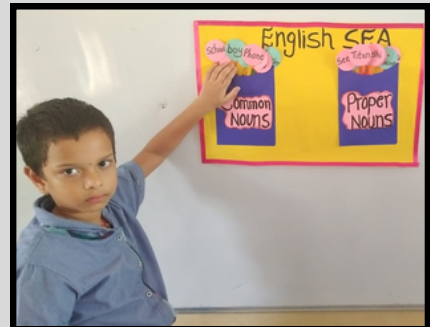

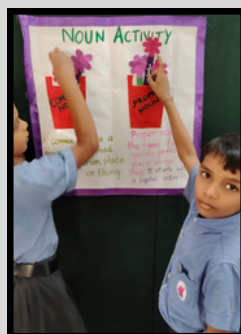

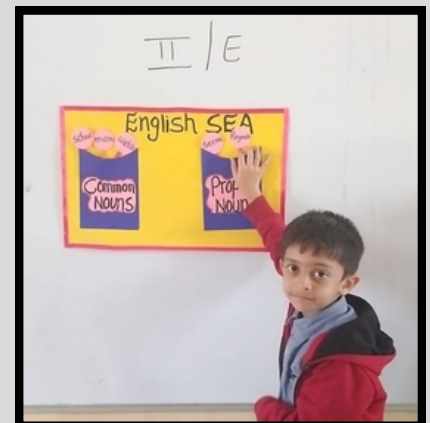

The students of Grades I and II celebrated Guru Purnima with great devotion and enthusiasm, expressing their gratitude to the teachers who guide and inspire them every day. The celebration featured a meaningful role play presented by the students, depicting the inspiring story of Guru Dronacharya and his devoted disciple Eklavya. Through their confident performances, the young learners beautifully showcased the values of respect, dedication, discipline, and the importance of the guru-disciple relationship.

Adding to the significance of the occasion, teachers recited sacred Guru Shlokas, and the students enthusiastically repeated them, filling the atmosphere with positivity and devotion. The activity helped children understand the importance of honouring their teachers and embracing the values they impart. The celebration was a memorable learning experience that instilled in the students the timeless values of gratitude, respect, humility, and a lifelong love for learning.

Nouns Adventure – NAME DETECTIVES AT WORK!

The enthusiastic students of Grade II embarked on an exciting grammar adventure through the Common and Proper Nouns Activity. Designed to make learning interactive and enjoyable, the activity helped children understand the difference between common nouns, which name general people, places, animals, and things, proper nouns, which name specific people, places, and things. Using colourful charts, paper cut-outs, and engaging sorting games, students eagerly identified and classified words into the correct categories. They actively participated by placing noun cards on the Common Noun and Proper Noun displays, discussing their choices, and sharing examples with confidence. The activity also encouraged them to use the nouns they identified in meaningful sentences, strengthening their language skills. This hands-on learning experience enhanced the students' observation, classification, communication, critical thinking skills while making grammar fun and memorable.

LITTLE EXPLORERS, BIG DISCOVERIES!

The enthusiastic students of Grade I participated in the "Living and Non-Living Things Sorting" activity. The young learners explored their surroundings and collected or identified various objects such as leaves, plants, birds, stones, bottles, and toys. Students carefully observed each object and classified it by pasting 'L' (Living) or 'NL' (Non-Living) beside it on their activity charts. Through this engaging hands-on activity, they learned to identify the characteristics that distinguish living things from non-living things. The activity made learning enjoyable, interactive, and meaningful. It encouraged curiosity, active participation, and a greater appreciation for the world around them.

NATURE'S TREASURE HUNT: EXPLORING TYPES OF PLANTS

The curious learners of Grade II embarked on an exciting Nature Walk as part of their learning to explore the wonderful world of plants. Stepping outside the classroom, the students observed nature closely and discovered the different types of plants found around the school campus. During the walk, the children identified herbs, shrubs, trees, climbers, and creepers. They carefully observed the size, stems, and growth patterns of each plant, helping them understand how these plants differ from one another. Teachers guided the students in identifying the unique characteristics of each type, making the learning experience interactive and engaging. The activity encouraged students to observe, explore, and connect with nature while developing their observation, classification, communication, and inquiry skills. It also inspired them to appreciate the beauty and importance of plants in our environment. The nature walk turned the outdoors into a lively classroom, making learning fun, experiential, and memorable while nurturing young minds to become responsible caretakers of nature.
